

June 14, 2001

Milka Radulovic Utah Division of Air Quality PO Box 144820 Salt Lake City, UT 84114-4820

## Dear Milka:

First, I want to thank you for the very productive meeting of June 1 with Rand Crafts, myself, and you and your colleagues regarding IPSC's application to modify the high pressure turbines at the Intermountain Generating Station. Our ability to make the proposed turbine modifications during our regular spring outing is extremely important to our power purchasers in order for them to forego having to purchase very expensive replacement power. We sensed a commitment on your part to facilitate the processing of the permits in a timely fashion, in spite of your heavy workload. For this we are grateful. We were also pleased with your commitment to simultaneous review and issuance of both the Title V Operating Permit and the New Source Review Permit pursuant to IPSC's submission of it NOI.

To facilitate the timely completion of this process I have outlined below the major tasks and related dates we mutually agreed upon as targets.

Task  1. Review of NOI by Division of Air Quality	Target Completion Date Aug. 15	Task Period 10 weeks
IPSC review and comment of draft permit document	Sept. 7	3 weeks
3. Division of Air Quality management review	Sept. 15	1 week
4. Advertise for public comment	Sept. 15 Nov 3 4	9
5. Public comment period	Nov. 1 Dec 21	45 days
6. EPA Review	Nov. + Dec 4	45 days
